EXPERIENCE LETTER

Date: 28 May 2026

From
Mantis Infra Solutions Pvt Ltd
H.No. 7-2-7/137, Durga Nagar Colony,
Road no 8, Bairamalguda,
Saroornagar, Ranga Reddy,
Telangana 500079

TO WHOM IT MAY CONCERN

This is to certify that **Akshay Girish** has successfully completed a one-month internship at **Mantis Infra Solutions Pvt Ltd, Hyderabad** from **27 April 2026 to 28 May 2026.**

During the internship period, he was involved in **Preliminary Parametric Study of Structural Health Monitoring Techniques and Modal analysis of a ROB** as part of structural engineering analysis and research activities. He demonstrated good analytical ability, technical understanding, and sincere dedication toward the assigned work.

During the internship, the intern was involved in research and experimental activities related to Structural Health Monitoring and Structural Dynamics. The work carried out includes:

- Experimental study on beam specimens to determine natural frequencies using accelerometers.
- Signal acquisition and vibration data processing for modal parameter extraction.
- Validation of experimental results using Finite Element Analysis (FEA) software.
- Real-time vibration testing and monitoring of a bridge structure for natural frequency identification.
- Development and analysis of the bridge model in FEA software and execution of eigenvalue/modal
- analysis for comparison with field results.

His conduct and behavior throughout the internship period were found to be **excellent**. He was punctual, disciplined, and maintained a professional attitude while working with the team.

We appreciate his contribution and wish him success in all his future academic and professional endeavors.
